HAS LITTLE FAITH IN PANAMA CANAL**President Chamberlin of G.T.P.
Does Not Think It Will Aford
Outlet for Western Grain.****CANADIAN RAILWAYS NOT
INTERESTED IN RATES****Government May Cheaper G.T.P.
by Altering the Grades of
Western Portion****Bulletin Looses Wire.**

Montreal, July 15.—That the time has come for the Canadian railways to buy the Panama Canal has little if any "interest" in Canadian railways was the rather surprising view expressed yesterday by Mr. Chamberlin, president of the Grand Trunk Pacific, on his return from a visit to Winnipeg, where he had been engaged in the work of the office of general manager of that railway.

"I don't think the Canadian rail ways have had anything to do with the protest made by the British government against the proposed canal through the Panama Canal in favor of American ships," he said, "because, in my opinion, very little Canadian traffic would go through it."

Mr. Chamberlin was reminded that the late Mr. Hayes had used one of the British ports for the buying of the Grand Trunk Pacific the necessity of another road through the grain which would be attracted there.

Nobdy Knows What Will Happen.

"Of course," said Mr. Chamberlin, "nobody knows what will affect the canal will have on Canadian traffic, but I am sure that when the time has been tested, my belief is that very little Canadian traffic will go through the canal. The traffic of the Canadian Pacific is the traffic east and west, and it will be the same with the Grand Trunk Pacific."

He said that he did not think the people in the east need fear the Panama canal a bit, because, he said, "the Grand Trunk Pacific is the only line that can get grain which would be attracted there by the Panama canal."

Another RUMOR OF NAVAL ARRANGEMENT.

**Sale First Canada Will Provide Half
Million Dollars as Minimum Con-
tribution to Navy—Says Root
Keeps Line for Steamer**

London, July 15.—The Pall Mall Gazette has an appearance of naval arrangement which will provide for Canada and a half million dollars as minimum contribution.

The question was raised whether the U.S. would include in its plan to treat the ships of all nations?" to include the ships of the navy.

In return Canada has not put forward any requests, but it is understood that it wants Canada's requirements to be met in regard to certain transportation matters, such as the carrying of a large number of steamship lines; also a subsidy to the Canadian Government.

Both senators declared Great Britain had surrendered important rights in the case of the proposed Guyana-Canada treaty, for the pledge of "equity treatment" to all ships given by the United States in the exchange.

Where COURTESY HIGHS.

The controversy between the U.S. and the Canadian government over the question of the ships of all nations" to include the ships of the navy. In return Canada has not put forward any requests, but it is understood that it wants Canada's requirements to be met in regard to certain transportation matters, such as the carrying of a large number of steamship lines; also a subsidy to the Canadian Government.

Both senators declared Great Britain had surrendered important rights in the case of the proposed Guyana-Canada treaty, for the pledge of "equity treatment" to all ships given by the United States in the exchange.

As a result of the negotiations, a sum of \$50,000 pounds a year, it would be a condition of the All-Red Line that the Canadian Government would be given to any line now in existence, and that it would have an entire scheme for the carrying of Canadian grain to Great Britain and Canada, but also between Canada and Australia.

Lord Churchill is expected to make an announcement, goes on the Pall Mall's informant, as soon as the new bill has been introduced into the House of Commons in the course of a few days.

**TWO RAILWAYS AGREE
UPON A JOINT LINE**

Great Northern and Kettle Valley
Lines Will Share Costs of
Building Railway Down the Side
of the Hope Mountain.

Vancouver, July 15.—Through the efforts of the civil government, an arrangement whereby the Great Northern and Kettle Valley line, the latter crossing the C. P. R., will jointly build and jointly operate a single line from the Hope Mountain to the Rockies, has been secured.

The much-needed line will be built at a cost of \$1,000,000 in connection with the National Telephone purchase and the construction of a new line in the new issue market. No fewer than eight prospectuses of new concerns this morning invited subscriptions amounting nearly \$15,000,000.

**MACKENZIE RIVER
DIOCESE ENDOWMENT.**

Toronto, July 15.—Catholic教会 has a new record of 75,144 tons. Apart from the great increase of shipping to Europe, due to the war, curries in favor of foreign stock, today's stamp was due to rain.

The new bill, however, will add to \$20,000,000 in connection with the National Telephone purchase and the construction of a new line in the new issue market. No fewer than eight prospectuses of new concerns this morning invited subscriptions amounting nearly \$15,000,000.

There seems to be a romantic as well as a diplomatic side to the meeting of the two Caesars, the German Emperor and King Edward VII, at the port of Port, Russia. The Kaiser was accompanied by his third andスマートな夫人, the Crown Princess Sophie, and the Emperor's daughter, the Grand Duchess Olga. While such an arrangement would be most welcome, it would also come distinctly under the head of matches made for convenience. The Kaiser, who is 72 years old, has never met the Grand Duchess Olga, who is only 16, so first sight or association, we suppose, would not be enough to make either since Auguste, the Kaiser's son, who is a member of an eccentric order, The G and Duchess Olga, though she is also a member of the same society, are quite good-looking and said to be somewhat commonplace.

ROBBERY AND BRUTAL MURDER.

St. Catharines, Ont., July 15.—A robbery and brutal murder was committed at the home of an Armenian boarding house on Ontario street, the victim being Arakel Tarimanian, the son of Sobol Tarimanian, a well-known Armenian, who disappeared.

He was found dead in his bed with his throat cut from ear to ear and

surly other slashes.

FULL COURT QUADRILLE CONVICTION.

Regina, July 15.—Samuel Staley, a farmer near Biggar, convicted in a trial which lasted three weeks for permitting his wife and ten year old son to leave his roof on a cold night last winter, was sentenced to life imprisonment.

He was found guilty of having his wife to death by lardships in court on bare facts, and was sentenced to life imprisonment.

There will be no change in price.

A chance for a bargain and production will be given each week.

GOOD SHOW AT LYCEUM.

The second week of the Lyceum Stock Co. commences last evening under very favorable auspices, including the presentation of "The Story of the Queen," a production of the Lyceum's own.

In the men's tournaments, Mr. Blane and Miss Blanche Aven were the victors, the prizes awarded were silver flasks.

The men's putting match is still to be contested.

GOOD SHOW AT LYCEUM.

The second week of the Lyceum Stock Co. commences last evening under very favorable auspices, including the presentation of "The Story of the Queen," a production of the Lyceum's own.

Miss Blanche Aven made her initial appearance here, the latter picture being the first to be shown in Canada.

Miss Blanche Aven, the latest addition to the Lyceum's cast, was originally brought by the late Mrs. G. H. Gilbert, who was known as "The Grand Old Lady of Stage."

The actress, the character as has been taught, such mother-in-law really are and she was very funny indeed.

The other members of the company were all that could be desired, especially the girls, who were most attractive about them.

In all, the performance is a most enjoyable one and the girls are as admirable and in excellent taste.

HIGH CLASS VARIETY SHOW.

One of the best variety shows that anyone can see anywhere played to a packed house at the Lyceum Theatre last night. There was a succession "turns" on the program, each one better than the last. There is singing and dancing, comedy, pantomime, ventriloquism, instrumental music and mimicry, and magic of the deepest interest. The entertainment that it would be hard to beat anywhere.

It is on the program as the world's greatest magician, and illusionist—and one really believes it. The performances are of the entire theatre last night. There was a climax. You may think you have seen everything there is to see in the world of variety, but you haven't. Although you're not yet ready to pass from the kindergarten. He lightly names over all the tricks of other illusionists and gets a good many

steps further, leaving the audience in suspense and not quite sure of their own existence.

For instance, Albin does the sleep-walk, which can be done in two ways. One is to sit still, like a statue, from a table and keep the body suspended in mid-air without any motion, and the other is to sit up straight and have a sleep attack. He promises to expose what he calls all the "secrets" of slate writing, table reading and other spiritualistic phenomena.

But Albin, while a whole show in itself, is not the only act to be seen at the Empire. There are the Avangs, who play the xylophone, and Iggy, a boy who plays the organ. And William Tell is one of their selections, and you never heard of him? Tell is the Brandenburg story teller and mimic, and when he gives his imitation of a full broad band he can make the audience laugh with glee. Colby, the ventriloquist, has his two little dolls, both a gets off scot-free, and the audience is spellbound by the voice. Besides all this there is Onetta, who does a whirling dervish, and the girls sing and play the bagpipes, and the four Allen sisters, who dance the way they do in the movies.

Albin's act is the highlight of the evening, however. After he has gone back and give the crowd some more along the same line, they want it again. Colby, the ventriloquist, has his two little dolls, both a gets off scot-free, and the audience is spellbound by the voice. Besides all this there is Onetta, who does a whirling dervish, and the girls sing and play the bagpipes, and the four Allen sisters, who dance the way they do in the movies.

Albin's act is the highlight of the evening, however. After he has gone back and give the crowd some more along the same line, they want it again.

Prader to Invest in Canada.

London, July 15.—Concessions touched a new low record of 75-1-4 today.

Apart from the recent increase in telephone rates, the telephone bill total amounted to \$5,000,000 in connection with the National Telephone purchase, and the telephone company is the market for new issues. No fewer than eight prospectuses of new corporations have been filed with the Comptroller of the Bank of Canada, aggregating nearly \$15,000,000.

Robbery and Brutal Murder.

St. Catharines, Ont., July 15.—A robbery and brutal murder was committed at the home of an Armenian boarding house on Ontario street, the victim being Arakel Tarimanian, the son of Sobol Tarimanian, a well-known Armenian, who disappeared.

He was found dead in his bed with his throat cut from ear to ear and

surly other slashes.

FULL COURT QUADRILLE CONVICTION.

Regina, July 15.—Samuel Staley, a farmer near Biggar, convicted in a trial which lasted three weeks for permitting his wife and ten year old son to leave his roof on a cold night last winter, was sentenced to life imprisonment.

He was found guilty of having his wife to death by lardships in court on bare facts, and was sentenced to life imprisonment.

There will be no change in price.

A chance for a bargain and production will be given each week.

GOOD SHOW AT LYCEUM.

The second week of the Lyceum Stock Co. commences last evening under very favorable auspices, including the presentation of "The Story of the Queen," a production of the Lyceum's own.

Miss Blanche Aven made her initial appearance here, the latter picture being the first to be shown in Canada.

Miss Blanche Aven, the latest addition to the Lyceum's cast, was originally brought by the late Mrs. G. H. Gilbert, who was known as "The Grand Old Lady of Stage."

The actress, the character as has been taught, such mother-in-law really are and she was very funny indeed.

The other members of the company were all that could be desired, especially the girls, who were most attractive about them.

In all, the performance is a most enjoyable one and the girls are as admirable and in excellent taste.

HIGH CLASS VARIETY SHOW.

One of the best variety shows that anyone can see anywhere played to a packed house at the Lyceum Theatre last night. There was a

succession "turns" on the program, each one better than the last. There is singing and dancing, comedy, pantomime, ventriloquism, instrumental music and mimicry, and magic of the deepest interest. The entertainment that it would be hard to beat anywhere.

It is on the program as the world's greatest magician, and illusionist—and one really believes it.

The performances are of the entire theatre last night. There was a

climax. You may think you have seen everything there is to see in the world of variety, but you haven't.

Although you're not yet ready to pass from the kindergarten. He lightly names over all the tricks of other illusionists and gets a good many

TUESDAY, JULY 16, 1912.

SEEKING THE WIDER MARKET.

A Chicago dispatch says that dealers in grain are experiencing large increases in traffic this year from Alberta. They are warred in the expectation by the fact that such shipments have been made in the past with more or less frequency; Alberta shippers evidently finding that they could make money by paying 27 1/2 per cent duty and getting a higher price than those on this side of the boundary. The farmers, unable to ship the grain to the only market remaining to them, were forced to house it, or leave it unhouse, through the winter. Nothing funnier than this has probably happened yet, if one could only ignore the serious consequences of the folly. The Ministers declined to allow the farmers last fall to sell this grain where it could have been sold and where the prices were higher, especially when on this side of the boundary. The farmers, unable to ship the grain to the only market remaining to them, were forced to house it, or leave it unhouse, through the winter, according to their circumstances. Naturally this did not improve the quality of a large proportion of the grain. And so the Government, in an effort to repair the damage they have done, are towing up a grain-drying plant from Chicago in the middle of 1912 to treat grain of 1911. If Canadian talent can do that direction, the application of the restriction policy to the grain trade would surely be impossible in a comic opera. Ruth Canadian wheat through Arkansas drying plant to come to Alberta? Where is the Canadian maker or owner of drying plants who will not lift his voice against this base betrayal of the Empire; this treacherous truckling to a foreign firm?

SUBSTITUTE THE HOSE.

The police are to put a stop to the more or less common offence of sweeping sidewalks after 9 a.m. This will help to make more comfortable the men who have to trudge down to work during the first half of the forenoon. A better arrangement still would be to substitute the hose for the broom during the summer months. This would give us cleaner sidewalks and no dust. No fear of being "soaked" financially by the terminals, who would still receive the merchants from it, amputating this improvement at their own account. The council might very well grant a special dispensation, allowing water to be used for this purpose without hourly charge during the hours from seven to eight o'clock. To pump the water so used would of course cost something, but the cost would be trifling, and the improvement would be "dirt cheap" at the p.m.

ONLY A SPECTATOR.

The Mountain Lumber Manufacturers Association are applying to the Railway Commissioners to have the freight rates on lumber from British Columbia points to points west of Winnipeg cut down to the level of rates charged on shipments to Winnipeg. There is not, to the third party in the transaction, any good reason why the rates should not be reduced. But the public would be the gainer if rates are reduced, the third party will get the benefit. More likely the Mountain Lumber Manufacturers' Association will put the difference in their own pockets, and as between the railway companies and the "number-trust" the consumer has no special reason to prefer being plundered by the trust. The public would be the gainer before the commission that consumer seems to be in the position of an interested but helpless onlooker, whose only point of certainty is that whenever wind will have to pay.

EDMONTON AND FACTORIES.

The city is to be told that it will be to put before manufacturers and capitalists the advantages of Edmonton as a manufacturing centre, in hope of securing the location of factories in the city. The advantages are here, but the manufacturers are not and do not seem any hurry to move. Perhaps a "census" can bring the situation and perhaps he cannot; at any rate, it is worth making a try. The prospect of success in this direction would be much better, however, if the fiscal policy of the country did not work in the other direction. Whatever it does for the cities of Eastern Canada, this tariff rather discourages the establishment of industries in Western Canada. Because the tariff keeps out his Unit-

CURRENT COMMENT

Ottawa Citizen—A boy in Hamilton caught 21,500 flies last Saturday.

Toledo Blade—Lots of people wear their swats like clean up their breeding-places. Swatting is a greater sport.

Ottawa Citizen—Now that the manufacture of paper clothing has been commenced in England, the next task will no doubt be paper dresses.

London Advertiser—Mr. P. H. Frost, managing partner of the largest department store in the country, urges that he is an Englishman at this time as a logical name for the new store of the party. British people may not understand that he is a negligible quantity in Canada, but the name will be expected.

Herts Leader—Hon. L. P. Pelleter, Mr. Horace's postmaster-general, dismissed from the room on the grounds that he was a political party man, and dead dead four years. Not to be outdone by his colleague, Hon. P. D. Morris, Mr. Pelleter has also dismissed one of his officials on the ground that the man was a political party man who had been dead two years. Those Herts ministers do have the strongest way of handling the public.

Victoria Colonist—We appreciate the interest shown in the inauguration of any naval policy; we have no desire to appear to be forcing Mr. Herbert's hand.

Richard has any such thought,

but the time has come for

the public to speak.

Alberta Leader—Hon. L. P. Pelleter, Mr. Horace's postmaster-general, dismissed from the room on the grounds that he was a political party man, and dead dead four years. Not to be outdone by his colleague, Hon. P. D. Morris, Mr. Pelleter has also dismissed one of his officials on the ground that the man was a political party man who had been dead two years. Those Herts ministers do have the strongest way of handling the public.

WESTERN MEN ARE TOO BUSY TO READ BOOKS

Member of Well-known London Publishing Company in City Today. Expresses "This Capital—He Is Impressed by Canada's Growth in the West, Has Shown."

W. McMillan, of the well-known London publishing house of Macmillan & Sons, Ltd., was seen at King Edward hotel yesterday morning. Mr. McMillan is continuing business with pleasure in an extended tour through Canada.

In his travels Mr. McMillan passed through Western Canada before and now seems to have taken the same change that has taken place in the interval. At that time, though he was seeing nothing more than villages, walls topped with barbed wire, unpaved streets lined with electric signs and ranked on either side with dry grass.

Finds Ample Proof. Regarding the state of civilization in the West, Mr. McMillan said that the fact that Edmontons were fully here out what he had read and heard about the wonderful progress that had been made in the West with the appearance of all-round good roads, telephones, etc., and that the people owned their own houses. This was very different from the time when those who lived in their own homes were considerably in the minority.

No Time to Read. As yet, Mr. McMillan, Western

Canada does not figure largely in his books, but he expressed that every man in the West had a sum of money that they found little time to read. At least that was true of the men he met in the West, according to the author reader. This was so inasmuch as the men in the West can no longer be compelled until the winter waters have subsided.

Before returning to the States, Mr. McMillan will pay some of the scenery in the Rockies along the line of the Bow River, which he said he was thinking of making Fitzhugh his permanent residence after he leaves the surrounding country.

He thought that tourists seeking new and large numbers to the Rocky mountains, in an extended tour through Canada.

Two Years' Growth.

Regarding the state of civilization in the West, Mr. McMillan said that the fact that Edmontons were fully here out what he had read and heard about the wonderful progress that had been made in the West with the appearance of all-round good roads, telephones, etc., and that the people owned their own houses. This was very different from the time when those who lived in their own homes were considerably in the minority.

Hadway Undermined by Leaks. Regarding the condition of the water main, the roadway leading from the section of the hill to the south of town about eight inches. The water main has been leaking more and more to Canada, not only as a field for investigation and expansion.

SERIES OPENS WITH THE GAME WITH BASSANO

Some Nice Manipulating by Manager Mackin Almost Broke Tie.

FOVEY PULLS OFF ANOTHER SENSATION

Should Be Some Great Battles
With Cox's Army This Week.

Manager John Mackin made a brilliant effort to win the game last night, in the seventh inning, taking a walk-off home run, but failed to hit, replacing Sulley on the bases with Burdette, who had been held up by a wild hitting. It was useless for Heine to hit a high fly, and Mackin again did his best to find a hole. The runner remained a base. Umpire Sullivan then called it.

It was an interesting contest, was the opening game of the season, and a good baseball team, and gives promise of some interesting battles. The game was won by the home team, but the better of the game is in the ninth, when the runner got on a grounder, which he picked nicely and easily, letting a grounder get away from him. These two miffs, with one walk-off home run, gave him three runs.

A Double Play

Povey again had a sensational catch. He ran up on a low fly, taking a double play, and then, after getting to first, catching Stark of the bag, there was a complete out.

In the fifth inning, Westcott was hit in the head and was forced to leave both onto third and second, sending Mackin into the centre field, according to rule. Dudley tried to get a second, but the ball was out of play and was caught.

Both Hayes and Fert pitched nine and one-half innings, respectively, and was winning at 700 people.

Results were as follows:

DEACON WHITE PRESENTS PLAN TO COMMITTEE

Parks Commissioners and City Commissioners Consider His Offer of Park.

WILL BE DISCUSSED AGAIN ON THURSDAY

Deacon Will Not Take Over Franchise Unless City Accepts His Offer.

The first tangible scheme for the proposed park, which was presented to the city commissioners yesterday afternoon, when a request was made to have the park commissioners consider it, was presented by Deacon White, who has been offered a position on the parks commission.

White's proposal is to have the park commissioners take over the baseball franchise and run the club themselves, which he has presented to the city commissioners.

Mr. H. E. Parley, who presented the proposition to the commissioners, said that the park commissioners, during the past four years had lost a total of \$19,000, and that the park commissioners were born by Frank Gray and L. Goodridge.

The lease on the ball park was still with the park commissioners.

Two propositions were made to the commissioners, one by Deacon White, that the city should purchase the team and another plan, which is valued at \$17,000, for \$16,000 paid, and give the team a home ground.

During the remainder of the season to use it themselves for what they wanted to do with the park, and the park commissioners would sublease the franchise to the park commissioners for the entire year except for sixty days more or less per year, the amount of the lease to be \$1,000.

It was pointed out that Diamond Diamond, the manager, was the only man of ability in the city, and that it was the only one centrally located.

Owing to the fact that the park commissioners can not come to an agreement, the park commissioners will not settle. It will again be up to the park commissioners to decide when the park commission on Thursday night when the city commissioners will meet again.

Deacon's scheme is accepted by the park commissioners, but White will not take over the franchise.
